

MTS LIFECYCLE MANAGEMENT PROGRAM

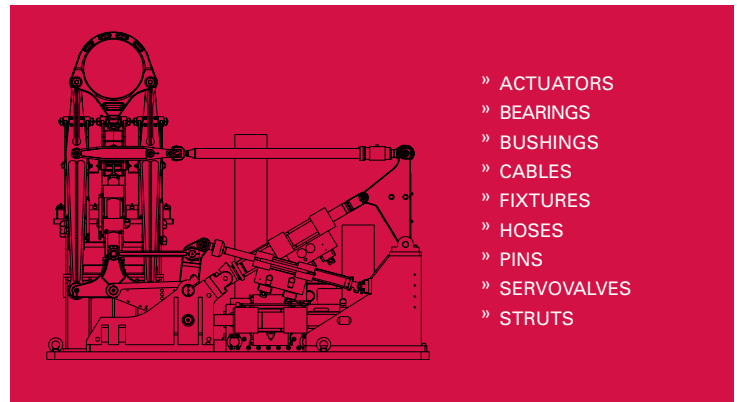

329 CORNER REBUILD AND EXCHANGE

Maximize long-term system performance with proactive corner maintenance

The corners of your **MTS 329 Road Simulator** can withstand years of demanding use. Over time, however, each corner's load-bearing fixtures accumulate subtle fatigue stresses, causing moving parts of other components to fall outside their required tolerances. Data integrity in reproducing road profiles begins to degrade at this point, with costly component failure the ultimate outcome if no preventive measures are taken.

By enrolling in the **MTS 329 Corner Rebuild and Exchange Program**, you can avoid these undesirable conditions with planned, proactive maintenance.

Multiple benefits for your test lab

- » Get utmost data integrity and test repeatability
- » Manage all maintenance in a single, planned shutdown period
- » Avoid costly component failure
- » Stay current with the latest 329 Road Simulator component specifications
- » Ensure the lowest cost of ownership

EXPERT 329 CORNER REFURBISHMENT. LEVERAGING THE SAME ENGINEERING AND TECHNOLOGY WE USED TO MANUFACTURE YOUR 329 ROAD SIMULATOR, MTS ENGINEERS WILL EVALUATE AND RESTORE PARTS TO THEIR LIKE-NEW, FULLY WARRANTED SPECIFICATIONS. WE ALSO OFFER THE OPTION TO INSTALL RESTORED CORNERS FROM OUR INVENTORY WHEN WE REMOVE YOUR ORIGINALS.

A simple but effective strategy

After you've run your **MTS 329 Road Simulator** for approximately five years, we'll schedule a time to remove your corners and restore them to their like-new, fully warranted condition, using our proven factory refurbishment processes. We also offer the option to install rebuilt, fully warranted corners from the MTS inventory.

This maintenance flexibility continues for the life of your **MTS 329 Road Simulator**, getting you decades of like-new performance and maximum uptime.

Enroll today

If you test with an **MTS 329 Road Simulator**, this program is an absolute must for getting utmost productivity and cost performance for the life of your system. To enroll or learn more, contact your local MTS field representative, call 1-800-944-1687 or send an e-mail to info@mts.com.

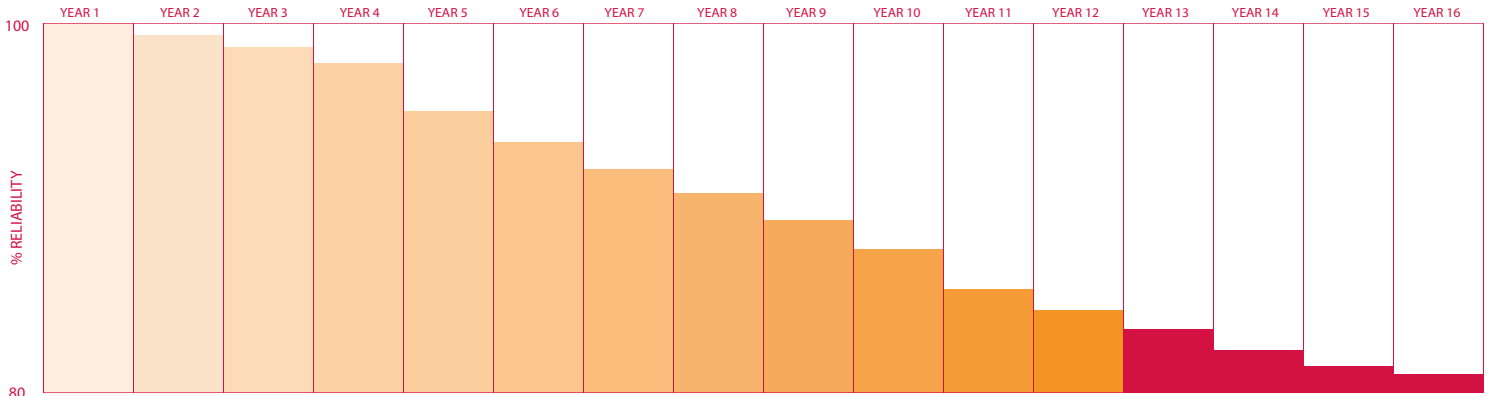

MTS LIFECYCLE MANAGEMENT PROGRAM

329 CORNER REBUILD AND EXCHANGE

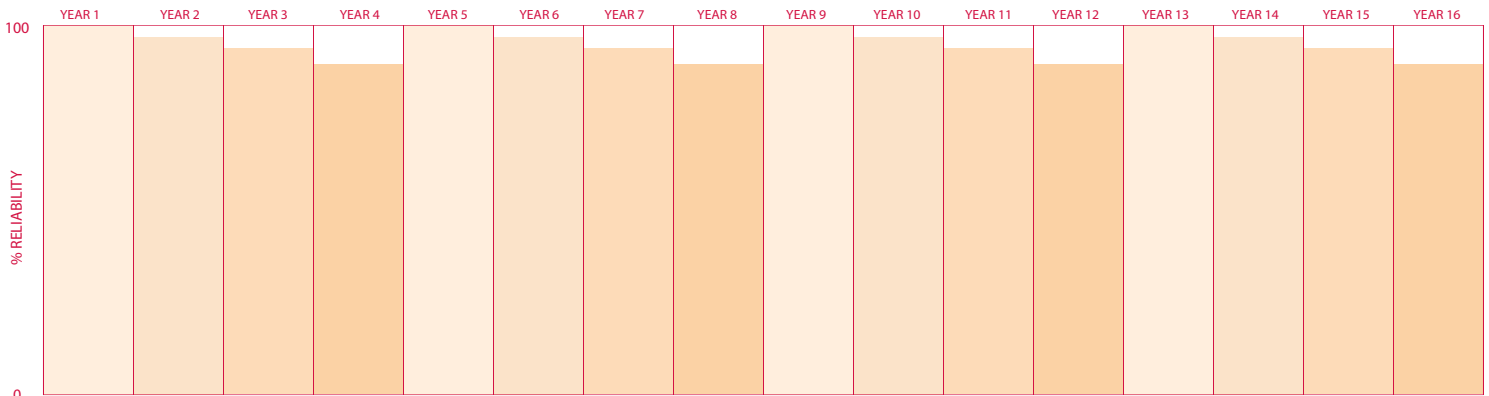

Maximize your MTS investment over the long term

Without MTS® Planned Maintenance

With MTS® Planned Maintenance
